## References

---

**Speaking/Marketing** Many years ago I was discovered as a speaker in recording studios by several producers. I was then coached as a voice for advertising. Since then I have accepted contracts in the areas of advertising, synchronisation, corporate video, documentaries, image and industrial film, multimedia projects, telephone recordings, readings, listening books and much more.  
For many years I've been engaged as the well-known voice "PETRA PORTA" and booked for a substantial period of time. Listen to my references such as some of my advertising spots and speech rehearsals in order to hear my voice range in this way you can 'hear' the services that I offer for yourself!

**Singing** During my 13-year experience in recording studios, my main area of work has been chorus singing eg. For the Chancellor CD (Gerd Schroeder), backing voice for coloured rappers and the chief voice for dance and pop recordings. Songs in German and English suit me best because the basic tone of my voice is passionate, bold, soft and varied, and therefore describes the harmony my voice offers.  
Listen to some of my songs in the section for references. Through my own inspiration and experience I'm able to simplify the producer's job during the recording of songs or advertising spots. My stage presence has been coached by live performances with the girl bands, for the radio, at weddings and in discos. I've trained my voice regularly through workshops and private singing lessons so that my confidence will impress you. Listen to me and let me convince you!

**Model** I was recently discovered by a casting agency as a model and also accept contracts in this field. Take a look at My photo gallery which includes several professional photoshootings.

**Roles** Erotic loving and hysterical up to the decisive voice. From the very cute teeny brat to the friendly-serious Voice over or action script, comic voice, young teens, nasty woman, blonde girl, prudish, naive mother, anchorwoman and much more. I can also speak other roles on request!

**Voice range** Old or mature, seductive, young, deep-warm, erotic and sexy, dramatic, exclusive, elegant, likeable, superior, secretive, serious, competent, narrative, motherly, crazy/wacky, confident and further different roles.

**Specials** Since 2000 as a spokesperson and active freelancer. Very quick perception ability and exchange of information when talking. Very receptive to direct production, versatile and flexible in delivery time to customers.

**Studio**  
- **Own recording studio**  
- **Microphone:** Rode NT2 & Neumann TLM 103  
- **Pre Amplifier:** Mindprint Invoice  
- **Transmission Technology:** Music-Taxi Dialog 4, MP3 transit and other desired formats  
- **Criteria:** High availability, Top Service + adaptability of the voice

## Further Experience
